

Reference: CCT-005

Name: AUTOMATIC POSTFORMING MACHINE

Year: 2002

Brand: HOMAG

Width: .

Description: Automatic postforming machine.

Thickness of the piece max. 45 mm

Length of the pressing area 1700 mm

Roller and glue application nozzles.

PVAc glue system

Machine control HOMAG HOMATIC NC 21

Thickness of the piece min. 16 mm

Length of the piece min. 700 mm

Width of the piece min. 150 mm

Extension of the max. 110 mm

Overlap width 35

Laminated thickness max. 110 mm

Radio min. 6 mm

Radio max. 22 mm

Advance max. 18 m / min

Continuous variable power

Postformed single-sided

Pressure rollers

Preheating zone

Declaration of conformity CE

Consumption: 35 KW
